WE DESIGN WITH THE LAND.

ABOUT US:

CGA

Established in 1959, CGA has been serving Iowans for over six and a half decades, providing civil engineering and land surveying services across the state. CGA opened its doors in Conrad, IA and moved headquarters to Marshalltown in 1971 where they currently reside. Today, the firm has additional offices in Ackley, Cedar Falls, and Des Moines. Our team is strategically located throughout Central Iowa to provide the best responsiveness to our clients.

CGA was founded on the principles of creativity in design and implementation; relationship building with our peers, clients, and communities; enthusiasm for our daily work; focus on personal, work, and client families; open and on-going communication; continual improvement in our product; and outstanding internal and external teamwork on every project we are apart of.

WHAT WE OFFER:

- Topographic Surveys
- Construction Surveys/Staking/Locates
- Transmission Line Surveys

OTHER

- Municipalities & Governmental
- Structural Design
- Architecture
- Landscape Architecture
- Right of Way
- Grant Funding & Assistance

WHY CHOOSE CGA?

Clapsaddle-Garber Associates, an employee-owned company, values its employees and actively strives to have a supportive and collaborative culture. Our staff includes engineers, surveyors, drafters, designers, and a R.O.W. agent who work together to solve problems, ensuring the best service is provided. Additionally, Wertzberger Architects, a decorated architecture firm est. 1991, recently merged with CGA, bringing on architectural services in retail/commercial, residential, industrial, and public fields.

CGA has completed various projects involving cities, counties, state agencies, airports, colleges and universities, hospitals, restaurants and retail establishments-commercial, residential and municipal sites, parking lots, wetlands, roads, streams, rivers and ponds. Throughout the last 65 years, an estimated 12,000+ surveys have been completed and 80+ counties have been reached with 240+ cities total. CGA has had a well-known and long-standing resume across the state of Iowa as a leader in engineering and land surveying services and is ready to help you make your vision a reality.
